## PRESS RELEASE

### The Tamarisk 19 by North Sea Craft Limited

North Sea Craft Limited based in Colchester, Essex are pleased to exhibit the modern gaff sloop, the Tamarisk 19 for the first time at the Southampton Boat Show.

The Tamarisk 19 follows the tradition of the Tamarisk class sailing cruisers first designed by David Cannell in 1972 on traditional lines but built using modern materials.

The Tamarisk 19 should prove very popular for the “trailer-sailer” cruising market and is designed to RCD Category C – Coastal and Estuary sailing. The vessel has a large cockpit comfortably accommodating four persons and bunks below fitted for three with galley and toilet.

The Tamarisk 19 is fitted as standard with an outboard engine located in a moulded well at the aft end of the cockpit but can also be sold with a small diesel inboard engine.
